**Categories:** Pogo FOIA

Yes, that is great news. I know you will be sharing more with us during our meeting, but I am curious, and I have not done more than scan the petition so far, so with the petition I am guessing then that the test results were favorable and you may not need controls, is that right? Do you have anticipated dates for the testing yet?

I hope your day is going well.

Thank you Sally, I am working to find out if the time you have suggested for a meeting will work, so far it is looking like the first day would be better, I will let you know for sure as soon as I can.

Heather,

Attached is Pogo's revised Petition. A hard copy will be certified mailed to the Director tomorrow.

Pogo would like to set up a meeting with you in Seattle. Would August 22 or 28 work?

The purpose of the meeting would be to present the results of our first incinerator stack test and discuss options for controls.

Both our stack test contractor and AQ specialist could be present. Therefore the focus would be technical discussion.

If needed, we'd like to follow up with a brief meeting with counsel to discuss Pogo's path forward.

Please give me a call if you wish to discuss.

Sally S. McLeod, CEM, REM
